Information

I am a student with a passion for programming and AI, and someone who enjoys working with people. Through committees and board work in my association, I have learned to organize, communicate, and achieve goals together. I want to further develop my technical skills in a team where I not only write code, but also collaborate in an open and friendly team that makes an impact.

Education

Universiteit van Amsterdam – Musicology

2023 - 2026

Universiteit van Amsterdam – Computer Science

2021 - 2025

- GPA: 7,7

- Thesis "Attention to Expression: Predicting Musical Dynamics with Transformer-based Sequence Regression" finished with a 8,5

Corlaer College – VWO N&T

2015 - 2021

- Cum laude
- Member of the debate club

Relevant experience

As secretary, I was responsible for communication within the fraternity and with the association. I managed all correspondence, chaired meetings, and kept members informed of decisions and developments.

For the National Econometricians Day, I completely redesigned the website and set it up in Framer, so that the team can easily manage the site themselves. The new design improved user-friendliness and created a clear and attractive online presentation.

My role as a front-end developer was to completely redesign and develop the Stip-IT website in WordPress according to the client's wishes. The new site replaced the slow old version and provided better performance, a more user-friendly design, and a more professional online appearance.

My role as a front-end developer was to completely redesign and develop the student association's website in WordPress. This improved the student association's online presence, resulting in greater engagement and more success in attracting new members.

My role as a front-end developer was to design and develop a responsive and user-friendly restaurant website from scratch in WordPress. This involved translating the client's vision into a fully-fledged website that displayed the menu, events, and special offers.

Skills

- **Dutch:** Native

- **English**: Cambridge English C2 Proficiency (2020)

- **Swedish**: A2
